1. Claims 1-19 are presented for examination.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-19 are rejected under 35 U.S.C. § 102(a) as being anticipated by Henderson et al. (Henderson) patent no. 6,185,603.

4. As to claim 1, Henderson teaches the invention as claimed, including a method for sending a message using at least one transport, comprising:

receiving data including at least one address; and for each address in the data (col. 6 line 61 - col. 9 line 49),

determining a transport to deliver the message using data associated with the address (col. 3 lines 4-10; col. 6 line 61 - col. 9 line 49); and

setting a flag associated with the message to indicate the determined transport (col. 3 lines 4-10).

2. As to claims 2-4, Henderson teaches determining the transport includes examining the data associated with the address for pre-defined patterns; an address is determined to be a wireless address if the address contains numbers, and determined

Art Unit: 2141

to be a default transport if the data associated with the address contains no identifiable predefined pattern (col. 6 line 61 - col. 9 line 49).

5. As to claims 5-6, Henderson teaches the data associated with the address explicitly indicates that a particular transport should deliver the message to the address; and the data is associated with the address in response to a user selecting the address from a list (col. 6 line 61 - col. 7 line 19).

6. As to claims 7-8, Henderson teaches each transport performing the actions of: determining if the flag indicates the transport should deliver the message; and if so, delivering the message; and each transport performing the actions of: determining if the transport is a last transport to send the message; and if so, further processing the message (col. 5 lines 16-30; col. 6 line 61 - col. 9 line 49).

7. As to claims 9-11, Henderson inherently teaches an email system that capable of processing the message includes moving the message to a destination folder; the destination folder is a sent items folder or a deleted items folder (col. 4 line 47 - col. 5 line 31).

8. Claims 12-19 have similar limitations as claims 1-11; therefore, they are rejected under the same rationale.

9. In the remarks, applicant argued in substance that

(A) Prior art does not teach determining a transport to deliver the message using data associated with an address.

As to point (A), Henderson teaches determining whether to use facsimile, pager, telephone, voice mail, or normal email to deliver a message using data associated with an address, addressee information, destination, or email recipient (col. 3 lines 4-10; col. 6 line 61 - col. 9 line 49).

(B) Prior art does not teach setting a flag associated with the message to indicate the determined transport.

As to point (B), Henderson teaches using predefined escape sequence !#page, !#phone, etc. to set a flag associated with the message to indicate the determined transport (col. 3 lines 4-10).

10. Applicant's arguments filed on 10/04/2004 have been fully considered but they are not deemed to be persuasive.

11. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO

Art Unit: 2141

EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
